

# ABSTRACTS

## Broadening horizons: medical nutrition for managing early Alzheimer's disease

---

A Corporate Sponsored Symposium held in  
conjunction with the Alzheimer's Association  
International Conference (AAIC) 2013

Monday 15th July, 2013

12-2 PM

Westin Hotel, Grand Ballroom  
Boston

 **NUTRICIA**  
Advanced Medical Nutrition

## Welcome

---

Dear Delegate,

It is our pleasure to welcome you to this satellite symposium sponsored by Nutricia. During this session, we will present Souvenaid as a potentially valuable management option for patients with early Alzheimer's disease.

The lectures in this symposium will focus on:

- Synapse loss in the evolution of AD
- The contribution of dietary factors to the pathogenesis of AD
- Souvenaid as a nutritional approach to the management of AD

The faculty and I look forward to your participation in what we hope will be an insightful and informative event.

With best regards

**Philip Scheltens**

Professor of Cognitive Neurology and Director of the Alzheimer Center  
VU University Medical Center  
Amsterdam  
The Netherlands

## Agenda

---

Chair: P. Scheltens (The Netherlands)

---

Richard Wurtman (USA) Synapse loss in AD and their restoration by enhancing synaptogenesis

---

Jose Luchsinger (USA) Addressing dietary factors and their contribution to the pathogenesis of AD

---

David Wilkinson (UK) Souvenaid: a nutritional approach to the management of early AD

---

Souvenaid® is for the dietary management of early Alzheimer's disease and must be used under medical supervision.
